

I received a very warm welcome at the Milele Elimu Centre and I immediately felt accepted and supported by everyone. The teachers were very open for our ideas and seemed happy that we were there. The same goes for the children.

We were quite free to do whatever we wanted to, so there was enough variety. It was also good for me as a teacher to see how the local teachers did their work. There were enough challenges as you also must adjust to the different kind of environment and having little material for many students.

The kids were always so thankful and happy about everything we did with them! So, in return they prepared a dance, which was one of the highlights of my stay.

The expectations of my volunteering were exceeded 😊! I was able to learn something for myself but also to give something back to the community. My stay at the Milele Elimu Centre was a great experience because I got to know such warm-hearted people who welcomed me at this place and showed me again how important and fun education is. This was a very inspirational stay for me, and I took with me many learnings for my job as a teacher.

Although I only was able to stay for a short time, I felt at home at the Milele Elimu Centre.
