

I have already worked as a teacher in Germany for several years. Through a friend I heard about the Milele Elimu Centre and because I wanted to experience a Kenyan school and their culture, I decided to volunteer for 2 weeks in Mombasa.

The reception was very welcoming! The teachers were very open-minded and appreciated new ideas. At the same time, they showed me how to teach and talk to children in their culture. The biggest challenge for me was to teach the kids who could not speak English very well. So specially with the little ones I had to be more creative. The students made me feel that it's worth to be a teacher and they respect their education a lot.

Working together with Forever Kids Kenya and the Milele Elimu Centre was a life-time experience! It showed me several new perspectives in life. Volunteering gave me fun, full heart satisfaction and I had the chance to be creative.

I would totally recommend a volunteering at the Milele Elimu Centre 😊!
